

Dental Codes (HCPCS D) Add-On

Online Medical
Coding Software

The Dental Codes (HCPCS D) Add-On provides essential coding content for all dental coders and billers. By adding this content to an Optum online coding tool, you will be able to search CPT® to dental code (HCPCS D codes) relationships (and vice-versa, dental codes to CPT®) directly from the American Dental Association (ADA).

Dental codes will appear in correct code ranges in Optum online coding tools and can be searched and accessed using any clinical term you choose. This add-on is essential for coders and billers in oral and maxillofacial and dental specialties.

Key features and benefits

- Full access, including detail and summary pages, to all HCPCS D codes
- D-codes are integrated directly into your code search – no need for a special search
- CPT® to dental codes (HCPCS D codes) and vice versa crosswalk

Item number: WA23

Price: \$19.95 per user, multiple-user pricing available

Code detail page

The screenshot displays the Optum EncoderPro.com Plus interface. The top navigation bar includes search options like 'Code Set Search', 'Image Search', and 'DrugReimbursement.com Search'. The main content area is titled 'HCPCS Code Detail - D1120'. It is divided into three columns: 'Medicare Reference', 'Code Information', and 'Optum360 Data'. The 'Code Information' column shows the code description for D1120: 'prophylaxis - child; Removal of plaque, calculus and stains from the tooth structures in the primary and transitional dentition. It is intended to control local irritational factors.' The 'Optum360 Data' column shows 'Color Codes' and 'Crosscodes'.

Dental code (HCPCS D) to CPT® crosswalk

The screenshot shows the Optum EncoderPro.com Plus interface with a search for 'CPT®, HCPCS, I10CM'. The search results are displayed under the heading 'Cross Coder - D0366'. The description for D0366 is 'cone beam CT capture and interpretation with field of view of one full dental arch - maxilla, with or without cranium'. Below the search results, there is a table with columns 'Code' and 'Description'. The table lists several codes: Z0486, Z0487, Z0488, and Z0479, each with a corresponding description.
