The **2022 ICD-10-CM Expert for Home Health and Hospice with Guidelines**, with our hallmark features and format, makes facing the challenge of accurate diagnosis coding easier. Use the codebook that contains the complete ICD-10-CM code set and the familiar Optum360 coding and reimbursement alerts for home health and hospice, including color bars and symbols that identify diagnosis codes for case mix, non-routine supplies, and non-cancer hospice diagnoses. Now with coding tips and definitions specific to home health and hospice.

Key Features and Benefits

- **Optum360 Edge — Intuitive features and format.** Visual alerts, including color-coding and symbols that identify coding notes and instructions, additional character requirements, placeholder X, and more.
- **Supplementary appendixes.** Additional information covering home health and hospice prospective payment systems, quality initiatives, supplies OASIS, and case mix groups.
- **Coding tips.** Coding tips are reviewed and updated and assist in appropriate code selection.
- **Clinical definitions.** Clinical definitions help provide a better understanding of complex ICD-10-CM diagnostic terms.
- **Updated index with shaded guides.** The updated Index to Diseases and Injuries includes vertical shaded guides that show the indent levels for subentries under main terms.
- **List of code changes and conversion table.** A list of all 2022 new, revised, and deleted codes, plus an ICD-10-CM conversion table from the new and changed codes to the code previously used.
- **Guidelines with coding examples.** Official Guidelines for Coding and Reporting, including chapter-specific coding examples.
- **Helpful illustrations.** Detailed color anatomy illustration appendix. Plus, many illustrations at the code level identifying specific code-related anatomy.
