With the implementation of ICD-10 codes in October 2015, the **2023 DRG Desk Reference (ICD-10-CM)** gives access to crucial information to improve MS-DRG assignment practices, guidance on how to accurately assign DRGs under the MS-DRG system, and provides insight with the Optimizing section of the **DRG Desk Reference** based on ICD-10 codes.

The **DRG Desk Reference (ICD-10-CM)** is designed to work hand-in-hand with **DRG Expert** and the **Guide to Clinical Validation, Documentation and Coding**, which is the clinical section from the **DRG Desk Reference** based on ICD-10 codes. This product helps answer your DRG questions for all inpatient stays starting after October 1, 2022, as those claims will use the MS-DRG methodology based on ICD-10-CM.
