

AHA Coding Clinic[®] for ICD Add-on

AHA Coding Clinic[®] for ICD is the official source for ICD (ICD-10-CM/PCS, ICD-9 Vol. 1 and Vol. 3) coding advice to supplement and clarify the Official Guidelines for Coding and Reporting. The AHA Coding Clinic[®] for ICD Add-on provides a complete archive of the ICD coding clinics to support you in assigning the most appropriate code, to avoid claim denials and various research projects. This add-on functionality gives users the ability to search using keyword, code, or even by newsletter quarter and year. With this add-on, users now have rights to view all AHA Coding Clinic[®] newsletters in their entirety. There simply is no faster and easier way to search the full library of AHA Coding Clinic[®] content.

Key features and benefits

- **Optum360 edge: Official AHA Coding Clinic[®] advice at the code level.** Each quarterly article is thoroughly reviewed by a live subject-matter expert and organized by subject. Each subject is then assigned to literal codes and terms as well as referenced procedures within the subject.
- **Optum360 edge: Access any coding clinic in its entirety.** Users no longer are limited to subjects associated with codes. Users can now search by quarter, year, etc., and see full articles with all services available in each publication.
- **Search by newsletter month/year, keyword, code, etc.** Whether you are using Optum360 proprietary CodeLogic[™] to find a code, or using our unique search functionality to find information specific to the AHA Coding Clinic[®] content for a particular diagnosis code, you will be able to easily access the content for any code, within many locations in RevenueCyclePro.com and EncoderPro.com.
- **Access years of newsletters, publications and questions.** There are literally hundreds of volumes of content, all easily searchable by code/keyword, and we add to the library each quarter with the latest coding clinics and quizzes from the AHA. Users of this add-on always have access to the most current AHA information, and to volumes of historical AHA content. No other online resource provides access to this valuable AHA content like Optum360.
