

Historical Application Content Add-On

Online Medical Coding Software

The Historical Application Content Add-On provides easy access to historical medical coding descriptions, guidelines, Medicare information and much more for all code sets (CPT®, HCPCS, ICD-9, ICD-10-CM/-PCS) data going back eight previous quarters. This valuable add-on allows you to revert your online coding application back previous quarters (up to two years) so you can search and find content to help adjudicate older claims based on the past dates of service.

Item number: WA11

Price: \$149.95 per user, multiple- user pricing available

Key features and benefits

- The code description in the Notepad and User Notes displays the description applicable during the specified historical quarter.
- The compliance edit applies the selected historical date for the analysis period and edit conflicts.

Search results page

The screenshot displays the Optum coding software interface. At the top, there's a navigation bar with the Optum logo and various search options. Below that, a search bar contains the term 'Anesthesia'. The main content area is titled 'CPT® Code Detail - 96111'. It is divided into several sections: 'Medicare Reference' (with sub-sections like CCI Unbundles and Internet Only Manuals), 'Code Information' (with sub-sections like Code Description and Lay Description), and 'Code-Specific Reference Information' (with sub-sections like AHA Coding Clinic References and Annotations). A dropdown menu is open over the 'Code Information' section, showing a list of historical quarters: 'Current', '1st Quarter 2019', '4th Quarter 2018' (highlighted), '3rd Quarter 2018', '2nd Quarter 2018', '1st Quarter 2018', '4th Quarter 2017', '3rd Quarter 2017', and '2nd Quarter 2017'. The '4th Quarter 2018' option is selected.
