

ASA CROSSWALK® Add-on

Online Medical Coding Software

The American Society of Anesthesiology (ASA) CROSSWALK® Add-on provides essential coding content for all anesthesia coders and billers. This add-on allows you to search CPT® to Anesthesia CPT® code relationships (and vice versa, Anesthesia CPT® to CPT®) as shown directly by the ASA. Also, Optum provides ASA base units and even a calculator for pricing based on ASA base units. Whether coding pairs are primary or alternative, the inclusion of ASA-provided comments on RVG, crosswalks or crosswalk instructions assists in providing strong direction when crosswalking a CPT® code to an anesthesia CPT® code.

Item number:

WA24

Price:

\$199.95 per user, multiple-user pricing available.

Key features and benefits

- Crosswalk to ASA codes from CPT® codes
- ASA base units
- Reverse crosswalk to CPT® codes from anesthesia codes
- Includes RVG comments, crosswalk comments and crosswalk instructions

CPT® to ASA code crosswalk page

The screenshot shows the EncoderPro.com Plus interface. At the top, there are navigation tabs for Code Set Search, Image Search, DrugReimbursement.Com Search, Index Only Search, EncoderPro.com Plus Search, and Edit Custom Search. Below this is a search bar with 'All Code Sets' selected and a search button. The main content area is titled 'Cross Coder - 75898' and shows a table of crosswalks for CPT code 75898. The table has columns for Code, Description, ASA Base Units, Primary or Alternate Pairing, RVG Comment, Crosswalk Comment, and Crosswalk Instruction. The table lists several rows of crosswalks, including those for CPT codes 01924, 01925, 01926, 01930, 01931, and 01932.

Code	Description	ASA Base Units	Primary or Alternate Pairing	RVG Comment	Crosswalk Comment	Crosswalk Instruction
01924	Anesthesia for therapeutic interventional radiological procedures involving the arterial system; not otherwise specified	6	Primary		Use alternate for open procedure.	
01925	Anesthesia for therapeutic interventional radiological procedures involving the arterial system; carotid or coronary	6	Alternate			
01926	Anesthesia for therapeutic interventional radiological procedures involving the arterial system; intracranial, intracardiac, or aortic	10	Alternate			
01926	Anesthesia for therapeutic interventional radiological procedures involving the arterial system; intracranial, intracardiac, or aortic	10	Alternate		Report alternate when procedure does not involve aorta.	
01930	Anesthesia for therapeutic interventional radiological procedures involving the venous/lymphatic system (not to include access to the central circulation), not otherwise specified	5	Alternate			
01931	Anesthesia for therapeutic interventional radiological procedures involving the venous/lymphatic system (not to include access to the central circulation); intrahepatic or portal circulation (eg, transvenous intrahepatic portosystemic shunt[s] [TIPS])	7	Alternate			
01932	Anesthesia for therapeutic interventional radiological procedures involving the venous/lymphatic system (not to include access to the central circulation); intrathecal or spinal	7	Alternate

Code	Description	Primary or Alternate Pairing
02751	Transcatheter placement of extracranial vertebral artery stent(s), including radiologic supervision and interpretation, open or percutaneous, initial vessel	Primary
02341	Transluminal peripheral atherectomy, open or percutaneous, including radiological supervision and interpretation, renal artery	Primary
02351	Transluminal peripheral atherectomy, open or percutaneous, including radiological supervision and interpretation, visceral artery (except renal), each vessel	Primary
02371	Transluminal peripheral atherectomy, open or percutaneous, including radiological supervision and interpretation, brachiocephalic trunk and branches, each vessel	Primary
02381	Transluminal peripheral atherectomy, open or percutaneous, including radiological supervision and interpretation, iliac artery, each vessel	Primary
02541	Endovascular repair of iliac artery bifurcation (eg, aneurysm, pseudoaneurysm, arteriovenous malformation, trauma, dissection) using bifurcated endograft from the common iliac artery into both the external and internal iliac artery, including all selective and/or nonselective catheterization(s) required for device placement and all associated radiological supervision and interpretation, unilateral	Primary
03381	Transcatheter renal sympathetic denervation, percutaneous approach including arterial puncture, selective catheter placement(s) renal artery(ies), fluoroscopy, contrast injection(s), intraprocedural roadmapping and radiological supervision and interpretation, including pressure gradient measurements, flush aortogram and diagnostic renal angiography when performed, unilateral	Primary
03391	Transcatheter renal sympathetic denervation, percutaneous approach including arterial puncture, selective catheter placement(s) renal artery(ies), fluoroscopy, contrast injection(s), intraprocedural roadmapping and radiological supervision and interpretation, including pressure gradient measurements, flush aortogram and diagnostic renal angiography when performed, bilateral	Primary
05051	Endovenous femoral-popliteal arterial revascularization, with transcatheter placement of intravascular stent graft(s) and closure by any method, including percutaneous or open vascular access, ultrasound guidance for vascular access when performed, all catheterization(s) and intraprocedural roadmapping and imaging guidance necessary to complete the intervention, all associated radiological supervision and interpretation, when performed, with crossing of the occlusive lesion in an extraluminal fashion	Primary
34707	Endovascular repair of iliac artery by deployment of an ilio-iliac tube endograft including pre-procedure sizing and device selection, all nonselective catheterization(s), all associated radiological supervision and interpretation, and all endograft extension(s) proximally to the aortic bifurcation and distally to the iliac bifurcation, and treatment zone angioplasty/stenting, when performed, unilateral, for other than rupture (eg, for aneurysm, pseudoaneurysm, dissection, arteriovenous malformation)	Primary
