

ICD-10 Essentials: Applying ICD-10-PCS Guidelines

Introducing **ICD-10 Essentials: Applying ICD-10-PCS Guidelines**, an illustrated guide with practical examples of ICD-10-PCS guidelines and conventions. This coding handbook provides in-depth explanations of everything from the basic format and structure of the ICD-10-PCS code set, to use of the supplemental appendixes, to code assignment based on appropriate application of the coding guidelines. Using coding examples and case studies, correct code assignment is explained with an emphasis on application of the coding and reporting guidelines. For each and every ICD-10-PCS coding guideline, there are multiple coding examples and case studies designed to clearly illustrate coding concepts and reinforce understanding from the most basic coding questions to the most complex. This resource can be utilized within a code or term search or as an e-book as part of the Optum360 Library.

Item number:

WA39

Price:

\$99.95 per user*

Key features and benefits

- **Optum360 edge:** Hundreds of coding examples/case studies. *ICD-10 Essentials: Applying ICD-10-PCS Guidelines* provides multiple case studies illustrating application of each and every ICD-10-PCS guideline.
- **Optum360 edge:** Coding rationale. Each coding example and case study:
 - Provides rationale for each ICD-10-PCS code assigned
 - Explains the root operation(s) performed
 - Compares and contrasts similar root operations and identifies the correct root operation based on root operation definitions
 - Identifies and explains all applicable coding and reporting guidelines
- **Optum360 edge:** Designed for all levels of expertise. Coding examples and case studies tackle coding concepts ranging from basic to advanced.
- **Optum360 edge:** Illustrations. Both anatomical and procedural illustrations are provided to further enhance understanding.
- **Optum360 edge:** Hyperlinked comprehensive index. Quickly identify all relevant coding examples and case studies contained in *ICD-10 Essentials: Applying ICD-10-PCS Guidelines* when researching correct coding of specific procedures and correct application of coding guidelines.

* May only be purchased with a new or existing Optum360[®] RevenueCyclePro.com, EncoderPro.com, EncoderPro.com for Payers, ICDEXpert for Physicians, ICDEXpert for Post-acute Care or MedicalReferenceEngine.com subscription; multi-user licenses available.

Case Studies (Alphabetical Listing)

Ablation, AV Junction, Transcatheter	308
Abortion, Spontaneous Manually Assisted	357
Abortion, Vacuum Aspiration	358
Achilles Tendon Release	197
ACD Upgrade with Revision to CRT-D	341
Amniocentesis	95
Amniocentesis for Genetic Testing	359
Amniocopy	359
Amputation, Below the Knee (BKA)	46
Amputation, Left Fourth Toe Mid-proximal Phalanx	45
Amputation, Left Index Finger at Metacarpal-phalangeal Joint	46
Amputation, Midshaft Right Humerus	42
Amputation, Right Below-knee Distal Femur	42
Amputation, Right Elbow Level	40
Amputation, Right Elbow Level	40
Amputation, Right Forearm, Mid-shaft	42
Amputation, Right Forequarter	40
Amputation, Right Leg and Hip through Upper Ischium	40
Amputation, Right Wrist Joint	45
Amputation, Second Ray Carpometacarpal Joint Left Hand	44
Amputation, Transmetatarsal of Foot at Left Big Toe	45
Amputation, Transmetatarsal (Ray) Toe	47
Aneurysm Clipping	186
Angiography Diagnostic, Fractional Flow Reserve (FFR) and Intravascular Ultrasonography (IVUS)	260
Angioplasty, Pulmonary Vein	80
Annuloplasty	81
Aortobifemoral Bypass	118
Arthroscopy, Diagnostic Shoulder	107
Arthroscopy with Knee Derangement Repair	177
Artificial Rupture of Membranes (AROM)	367
Artificial Rupture of Membranes for Induction of Labor	359
Aspiration, CSF from Lumbar Drainage Catheter Port	307
Aspiration, Knee	274
Atherectomy, Bifurcation with Stent Placement and IVUS	258
