Access customized search results

Easily filter and customize search results and content based on your specialty.

Gain access to historical coding content.

Access the Optum360 E/M code evaluation tool

This tool walks you through E/M code selection by looking at different components of the E/M code (e.g., Exam, History, Medical Decision Making, etc.). Then the tool will supply the correct code based on 1995 and 1997 E/M coding guidelines and logic.
